Answer: B

Question: 8
Which test phase should occur first in an IBM Tivoli Identity Manager (ITIM) acceptance plan?

A. System testing
B. Functional testing
C. Performance testing
D. User acceptance testing

Answer: B

Question: 9
A new employee has been hired by Company A to fill a new function as a global LDAP administrator. This employee will also be responsible for performing tasks within the payroll system and performing updates in the sales system.
Company A is using IBM Tivoli Identity Manager (ITIM) V5.0 to provision new users into the corporate information technology resources shortly after they have been hired. Some resources have restricted access and require specific approvals or other information before a new user account is created.

User accounts will be provisioned for all new users appearing in the HR feed that IBM Tivoli Identity Manager V5.0 receives on these target systems:

-Active Directory
-Enterprise LDAP User
-Exchange

These target systems require the user first-line manager approval before the account is provisioned:

-Payroll
-Human Resources

These target systems require the system owner approval before the account is provisioned:

-Purchasing
-Sales

These account types for the Enterprise LDAP require approval from the Information Technology Risk group. The Information Technology Risk group is also required to submit additional information regarding justification for the account:

-Account types
Administrator
Back Operator
Global Administrator
Superuser
-Justification
Replacement support role
New function # Business requirement
Other: Explain

Approvers are given 24 hours to take action on an approval request (either approve or reject). If no action is taken within 24 hours, the approval request is escalated to the Service Desk for manual intervention. The Service Desk will manually reassign the request to a peer approver (as designated in Company A's quarterly organizational chart), if available, or reject the request. Rejection by any one approver will affect only the account under that approver domain of approval.

What additional information will the Information Technology Risk group be required to provide?

A. Justification
B. Account Type
C. Account Attributes
D. First Line Manager

Answer: A

Question: 10
Which two options describe components of the Self-Service User Interface that can be included in the customization design? (Choose two.)

A. Changing the button text
B. Changing the banner colors
C. Creating a custom workflow approval process
D. Changing the default lifecycle management flow
E. Creating new views for IBM Tivoli Identity Manager groups

Answer: A, B

Question: 11
Which steps are needed to create the password policy design?

A. Define password policy scope, select password settings, document password policy design
B. Define password policy requirements, analyze password settings, document password policy design
C. Gather current password settings, analyze password policy, define password scope, document password policy design
