Answer: D

Question: 11

Click the Point-and-Click button to begin.

Click on the icon or option that will allow you to delete a Novell iPrint print job.

The screenshot shows the Novell iManager web interface in Mozilla Firefox. The browser address bar shows the URL <https://172.17.12.101/nps/servlet/webacc>. The page title is "Novell iManager" and the user is logged in as "ADMIN da-tree". The "Roles and Tasks" sidebar is open, showing a list of tasks under the "iPrint" category. The "Delete Print Object" task is highlighted. The main content area displays the "Novell iManager" logo and version "2.7.0", along with a login confirmation message: "You are currently logged in to da-tree as admin.SLC.DA with Unrestricted Access." A notice banner states: "Notice: Some of the roles and tasks are not available. To see the list of Roles and Tasks not displayed and troubleshooting information go to the View Details page." Below the notice, there are two sections: "Web-based Administration" and "iManager Access Modes". The "Unrestricted Access" section explains that this mode displays all roles and tasks, but users still need necessary rights to use them.

Answer:

This screenshot is identical to the previous one, but with the "Manage Printer" task in the "iPrint" sidebar highlighted with a green box. The rest of the interface, including the browser, navigation bar, and main content area, remains the same.

Question: 12
