**QUESTION: 2**

Which three rules are valid transfer rules in Cisco Unity Connection? (Choose Three)

- A. Standard
- B. alternate
- C. closed
- D. holiday
- E. nonstandard

**Answer:** A, B, C**Explanation:**

Standard Transfer Rule

This transfer rule applies during the work hours that your Cisco Unity administrator specified for your organization, or in other situations when no other transfer rule is enabled. By design, the standard transfer rule cannot be disabled.

Alternate Transfer Rule Enable this transfer rule to apply during a specific time period when you want to override the other transfer rules. For example, you may want to route all your calls directly to voice mail while you are out of the office or you may want to transfer your calls to a different extension if you are temporarily working from another location.

As long as it is enabled, the alternate transfer rule overrides all other transfer rules. Closed

Transfer Rule Enable this transfer rule if you want Cisco Unity to perform different transfer actions during the nonwork hours that your Cisco Unity administrator specified for your organization. (For example, you may want to route all your calls directly to voice mail during nonwork hours.) As long as it is enabled, the closed transfer rule overrides the standard transfer rule during nonbusiness hours.

**QUESTION: 3**

Which Cisco Unity Connection report provides a summary view of the current size, last error condition, and status of the mailbox store?

- A. Users
- B. Message Traffic
- C. Mailbox Store
- D. System Configuration

**Answer: C**

**QUESTION: 4**

Users report that all external callers are leaving urgent voice-mail messages. Where can this behavior be changed?

- A. Under the Phone Menu Configuration > Unidentified Callers Message Urgency
- B. Under the Opening Greeting > Unidentified Callers Message Urgency
- C. Under the Message Settings > Unidentified Callers Message Urgency
- D. Under the System Call Handlers > Unidentified Callers Message Urgency
- E. Under the Voice-mail Box Settings > Unidentified Callers Message Urgency

**Answer: C**

**Explanation:**

message urgency indicates the action that Cisco Unity Connection allows when a message has been left by an unidentified caller or by a user who has not explicitly signed in.

**Section 2: Sec Two (12 to 42)**

**Details:**Topic 2, CUCM

**QUESTION:** 12

In which scenario is it possible to have the same directory number configured on two different lines or phones and not be a shared line?

- A. directory number assigned to different partitions
- B. directory number assigned to the same partition
- C. directory number assigned to different calling search spaces
- D. directory number assigned to the same calling search space

**Answer:** A

**Explanation:**

You can set up one or more lines with a shared-line appearance. A Cisco Unified Communications Manager system considers a directory number to be a shared line if it appears on more than one device in the same partition.
