QUESTION 2

The goal of the MSF Planning Phase is to create the _____.

- A. Vision/scope, project plans, and project schedules
- B. Design goals, project structure, and project schedule
- C. Testing approach, project budget, and project pilot plan
- D. Business case, technical specification, and project charter
- E. Localization plan, vision/scope, and project master schedule
- F. Design goals, project structure, and project testing approach
- G. Solution architecture and design, project plans, and project schedules

Answer: G

Explanation:

the planning phase is when the bulk of the planning for the project is completed. During this phase the team prepares the functional specification, works through the design process, and prepares work plans, cost estimates, and schedules for the various deliverables.

QUESTION 4

The team can assess the needs of those who will be directly impacted by the deployed solution by drafting which recommended element of the vision/scope document?

- A. Test cases
- B. User profiles
- C. Project scope
- D. Solution concept
- E. Vision statement
- F. Stakeholder map
- G. Problem statement

Answer: B

Explanation:

The design process gives the team a systematic way to work from abstract concepts down to specific technical detail. This begins with a systematic analysis of user profiles (also called "personas") which describe various types of users and their job functions

QUESTION 5

Which deliverable of the first phase of the MSF Process Model defines the approach the team will take in organizing and managing the project?

- A. Project plan
- B. Team role/cluster map
- C. Project charter document
- D. Project structure document
- E. Software development plan

Answer: D

Explanation:

The project structure document includes information on how the team is organized and who plays which roles and has specific responsibilities.

QUESTION 6

What is the goal of the first phase of the MSF Process Model?

- A. To determine the project costs and delivery date.
- B. To gain customer approval and budget allocation.
- C. To create a high-level view of the project's goals, constraints, and solution.
- D. To determine the technology and development environment for the solution.
- E. To create the solution architecture and design, project plans, and schedules.

Answer: C

Explanation:

Envisioning, by creating a high-level view of the project's goals and constraints, can serve as an early form of planning; it sets the stage for the more formal planning process that will take place during the project's planning phase.
