Microsoft

AX 4.0 Installation and Configuration

Visit: <http://www.pass4sureofficial.com/exams.asp?examcode=MB6-503>

Pass4sureofficial.com is a reputable IT certification examination guide, study guides and audio exam provider, we not only ensure that you pass your MB6-503 exam in first attempt, but also you can get a high score to acquire Microsoft certification.

If you use pass4sureofficial MB6-503 Certification questions and answers, you will experience actual MB6-503 exam questions/answers. We know exactly what is needed and have all the exam preparation material required to pass the exam. Our Microsoft exam prep covers over 95% of the questions and answers that may be appeared in your MB6-503 exam. Every point from pass4sure MB6-503 PDF, MB6-503 review will help you take Microsoft MB6-503 exam much easier and become Microsoft certified. All the Questions/Answers are taken from real exams.

Here's what you can expect from the Pass4sureOfficial Microsoft MB6-503 course:

- * Up-to-Date Microsoft MB6-503 questions taken from the real exam.
- * 100% correct Microsoft MB6-503 answers you simply can't find in other MB6-503 courses.
- * All of our tests are easy to download. Your file will be saved as a MB6-503 PDF.
- * Microsoft MB6-503 brain dump free content featuring the real MB6-503 test questions.

Microsoft MB6-503 certification exam is of core importance both in your Professional life and Microsoft certification path. With Microsoft certification you can get a good job easily in the market and get on your path for success. Professionals who passed Microsoft MB6-503 exam training are an absolute favorite in the industry. You will pass Microsoft MB6-503 certification test and career opportunities will be open for you.

Question: 1

Database improvements to Microsoft Dynamics 4.0 include: Choose the 3 that apply.

- A - A change to Unicode to help support data in more languages than Microsoft Dynamics AX 3.0.
- B - ReclD improvements that help increase performance and scalability.
- C - A change in the Database Wizard to help make creating the database an easier task.
- D - A change to optimistic concurrency that helps shorten the amount of time that database objects are locked.

Answer: A, B, D

Question: 2

A system implementer working with a customer on moving from Microsoft Dynamics AX 3.0 to Microsoft Dynamics AX 4.0. What important effect to the database must be considered before upgrading to Microsoft Dynamics AX 4.0?

- A - The database can be converted without any special consideration.
- B - The Microsoft Dynamics AX 3.0 database must be converted to Unicode before upgrading the data to Microsoft Dynamics AX 4.0.
- C - The database cannot be upgraded but instead all the data must be manually exported from the old database and manually imported to the new database.
- D - The upgrade checklist will automatically handle any needed changes to the database.

Answer: B

Question: 3

A customer asks the implementer to install their production Microsoft Dynamics AX 4.0 on a single computer, in order to save money. What response would be appropriate for the implementer to give to the customer? Choose the 2 that apply.

- A - The single computer install should not be used in a production environment because of potential performance issues.
- B - The only appropriate place for a single computer install at a customer site is for development and testing.
- C - The single computer install would be the optimal install in a production environment.
- D - The single computer install is for Partners only and should never be used at a customer site.

Answer: A, B

Question: 4

Which of the following is true in relation to the Help languages in Microsoft Dynamics AX 4.0? Choose the 2 that apply.

- A - It is possible to install help in multiple languages.
- B - The Help files for all languages are now installed by default.
- C - It is possible to view the Help files in multiple languages at one time on a Microsoft Dynamics AX 4.0 client.
- D - Users can switch between Help languages by changing the user settings in the Microsoft Dynamics AX 4.0 client.

Answer: A, D

Question: 5

The Application Object Server (AOS) has been changed to a true Windows Service. What are the advantages of this change? Choose the 3 that apply.

- A - Improved server status reporting to the Windows event log. This lets administrators view errors and warnings that can help in troubleshooting problems.
- B - Eliminating the dependency on the Microsoft Dynamics AX 4.0 Server Manager removes a security threat by which an attacker can send a command to the AOS to shut it down.
- C - Changing to a true Windows Service means that the AOS service will always run as Administrator.
- D - The AOS service can be configured to start at system startup and continue to run even when no user is logged into the system.

Answer: A, B, D

Question: 6

The application file server contains the files in which the Microsoft Dynamics AX 4.0 business logic is stored. Because of the sensitive nature of the customer data stored in these files, which of the following is true?

- A - This directory must not be accessible by the Application Object Server computers.
- B - Only the AOS service should have write access to these files
- C - Only the Microsoft Dynamics AX 4.0 administrator should have write access to these files.
- D - Only the AOS service and the Microsoft Dynamics AX 4.0 administrator should have write access to these files.

Answer: D

Question: 7

The system implementer is preparing to install Microsoft Dynamics AX 4.0 at a customer site. Before starting the install the implementer needs to know if the customers network infrastructure has the ability to handle the requirements for Microsoft Dynamics AX 4.0. What are the minimum bandwidth and latency numbers required for Microsoft Dynamics AX 4.0?

- A - Bandwidth = 100 MB per second
Latency = Less than 50 milliseconds
- B - Bandwidth = 10 MB per second
Latency = Less than 5 milliseconds
- C - Bandwidth = 100 MB per second
Latency = less than 5 milliseconds
- D - Bandwidth = 100 MB per second
Latency = more than 5 milliseconds

Answer: C

Question: 8

What are the critical areas of knowledge required by a Microsoft Dynamics AX 4.0 system implementer? Choose the 3 that apply.

- A - Networking
- B - Microsoft SQL Server
- C - Active Directory
- D - Version Control System

Answer: A, B, C
