**Answer: A**

**Question: 4 DRAG DROP**

Match the port number to the use on the S-Series. Assume default ports are being used.

|                                   |  |                                  |                                 |
|-----------------------------------|--|----------------------------------|---------------------------------|
| <input type="text"/>              | Traffic from the client to this port will be handled by the HTTP proxy.    |                                  |                                 |
| <input type="text"/>              | This port is used for an HTTP connection to the administrative interface.  |                                  |                                 |
| <input type="text"/>              | Traffic from the client to this port will be handled by the HTTPS proxy.   |                                  |                                 |
| <input type="text"/>              | This port is used for an HTTPS connection to the administrative interface. |                                  |                                 |
| <input type="text" value="8080"/> | <input type="text" value="8443"/>  | <input type="text" value="443"/> | <input type="text" value="80"/> |

**Answer:**

|                |  |                  |       |
|----------------|--|------------------|-------|
| Exam Name:     | Cisco IronPort Certified Security Professional |                  |       |
| Exam Type:     | Cisco  | Exam Code:       | CICSP |
| Certification: | Cisco IronPort                                 | Total Questions: | 66    |

80 Traffic from the client to this port will be handled by the HTTP proxy.

8080 This port is used for an HTTP connection to the administrative interface.

443 Traffic from the client to this port will be handled by the HTTPS proxy.

8443 This port is used for an HTTPS connection to the administrative interface.

8080      8443      443      80
